DECEMBER 2024

Uganda Trip - All 3 Projects

Dan Olachea and I spent almost 2 weeks visiting our Uganda projects. We arrived in Entebbe on Saturday, Nov. 23rd. We visited a nearby church on Sunday.

Madi Project

We took a Missionary Aviation Flight (MAF) to Adjumani on Monday and spent a couple days with the Madi team. Their passion and commitment is such a great blessing! We are excited about finishing the Madi NT late 2025 or early 2026. We returned to Entebbe on another MAF flight on Wednesday.

Runyankore Project

Matt Stensaas met us at the airport and on Thursday we drove for about 6 hours to Mbarara to visit the Runyankore team. We are glad to report that the OT is in the final checking stage and we hope to print the entire Bible in mid-2025. This is wonderful news!!

Lhukonzo Project

On Friday afternoon, we drove on to Kasese. This is the project Bro. Matt oversees and it is our newest project - only about 2 years in. I was so impressed with the Lhukonzo team, and even more blessed by the great job our WV staff did in the initial launching and training of this team. God sent us the right people and they really got it! They are doing a wonderful, thorough job. It was a huge blessing to sit with them, answer their questions and encourage them in the work.

Please pray for all three of these teams as they faithfully labor in the Word.

INDIA Project — WorldView Institute

Due to visa problems, WVI Director James O is stuck in India. When he and Toree went to the airport to come home for Christmas, Toree was allowed to leave, but James was detained and told he must apply for an "exit visa." He has met all their requirements and has been awaiting approval for two

full weeks now. They are not known for efficiency. Sadly, it looks like he will not be home in time for Christmas.

In addition, James has an appointment tomorrow for a root canal on a tooth that has been hurting for a while now.

This is a trying time! Please pray for the Lord to give James mental and emotional strength and pray for his family who will have Christmas without him. Due to the additional scrutiny, please do not try to contact him right now.

Tibetan Project (Nepal)

Lloyd has achieved some big milestones in his language studies and other classes. He has completed his written and oral exams for third level, first semester.

He is planning a furlough beginning in May 2025.

Liangmai Project (India)

The strife continues with much violence and several deaths in nearby villages in recent days. Please pray for the safety of **Wangrai and Michele** and our team.

Family News

On December 12 we "rescued" Emily from college for Christmas break!! Yeah!! We are glad to have her home!

We are proud of Emily for being selected to serve on PCC Proclaim Teams. She will be spending next summer counseling and singing during the seven weeks of Teen Extreme Camps conducted on campus. This means she has to return to campus on January 3rd to begin training for all this. That means only two weeks together for the holidays, but we are so thankful for the time we have.

We wish all of you a very Merry Christmas and a blessed New Year, and we thank you from the bottom of our hearts for your prayers, support and friendship.
